MULTI-VEHICLE/FLEET GRAPHICAL TIME REPORT

Description

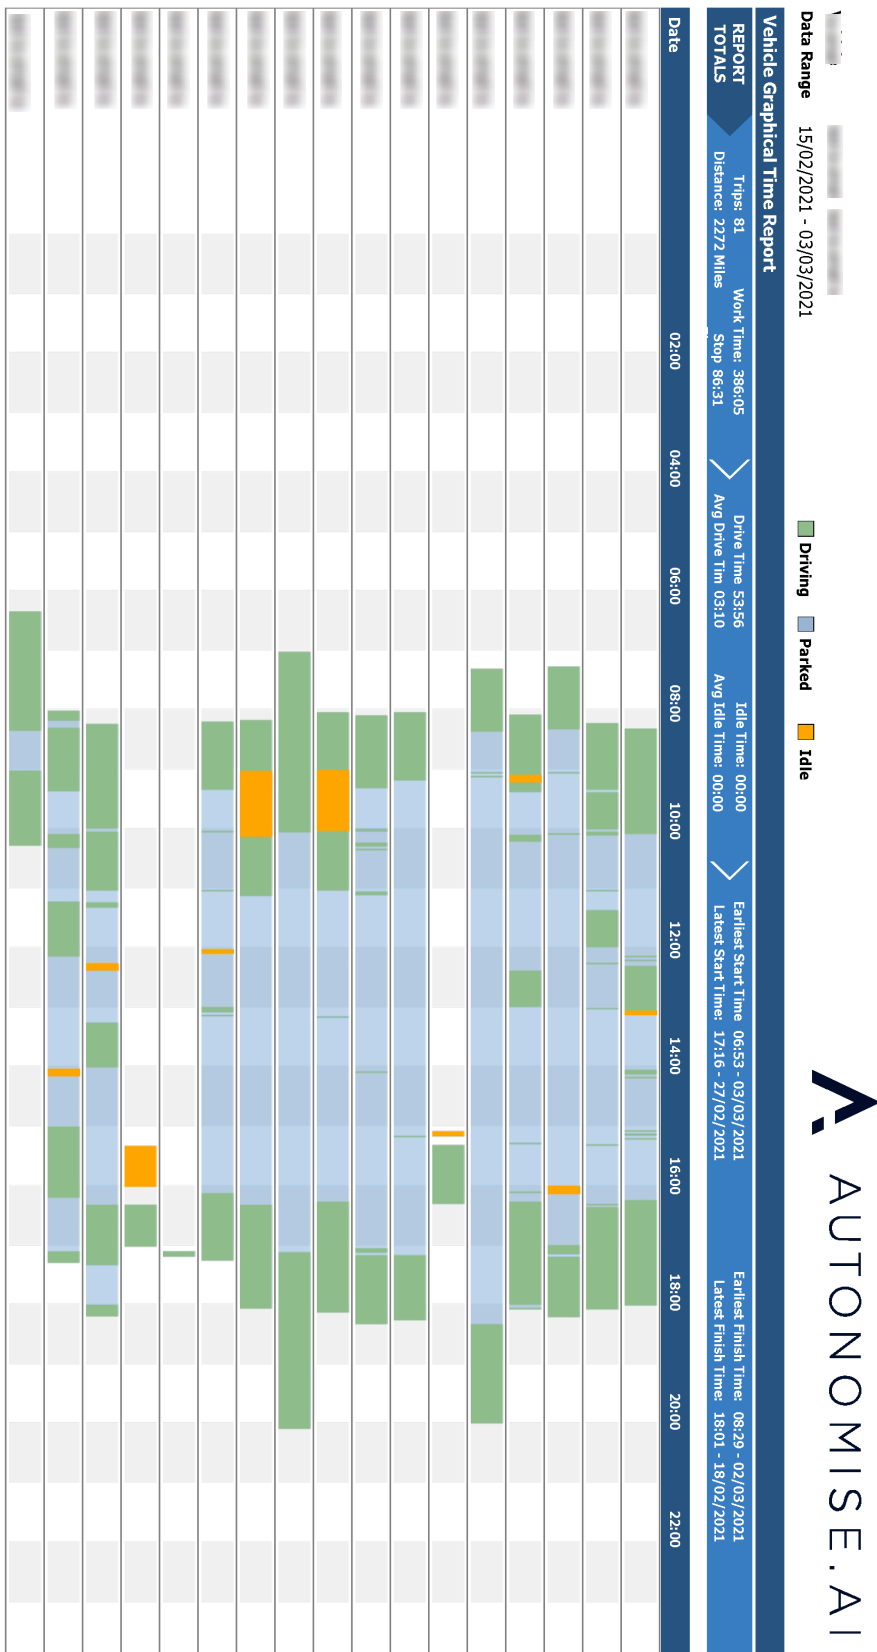

The graphical report displays a fleets usage in a time bar format. Journeys are shown in green with parked time shown in blue up until the last trip so that the whole working time range of each vehicle is shown.

The data is grouped by day with the time usage pattern of each vehicle shown sorted by vehicle name. Vehicles with no data are also shown.
The report total summary shows report totals and average key performance indicators.

Availability

This report is only available as a PDF file.

This report can be scheduled for email delivery daily, weekly or monthly.

MULTI-VEHICLE/FLEET TIMESHEET SUMMARY REPORT

Description

The fleet timesheet summary report displays a basic week view of a fleets time and distance performance. Each vehicle is displayed on a horizontal line with seven days activity. Each day displays the start time and location, the end time and location and the days total mileage and hours worked. Each vehicle also has the total distance, hours worked, hours driven and stop time displayed on the left.

The report total summary calculates the report totals and average key performance indicators.

Availability

This report can be scheduled for email delivery daily, weekly or monthly.

MULTI-VEHICLE/FLEET DETAILED TIMESHEET REPORT

Description

The fleet detailed time sheet summary report displays an extended view of a fleets time and distance performance. The data is shown for each day, grouped by vehicle. Each day's key performance indicators are displayed along with a vehicle total for the reporting period.

The report total summary calculates the report totals and average key performance indicators.

Availability

This report can be scheduled for email delivery daily, weekly or monthly.

MULTI-VEHICLE/FLEET SCORE BOARD REPORT

Description

The vehicle scoreboard displays a fleet's driving style performance with the worst drivers at the top. The score is based on the number of events per 100 miles to give a relevant rating between drivers.

Speeding events consist of exceeding the maximum speed of the camera, and also for exceeding the road speed limit.

Availability

This report can be scheduled for email delivery daily, weekly or monthly.

Report Time 15/02/2021 - 07/03/2021

MULTI-VEHICLE/FLEET DETAILED SPEEDING REPORT

Description

The fleet detailed speeding summary report displays a comprehensive overview of fleets speeding on a per vehicle basis. Each vehicle has the number of speeding events and Max speed displayed for each road speed limit band.

Each speeding band is grouped into 3 categories with the speed ranges defined in the report.

The report lists vehicles sorted in order of the speeding events per mile with the vehicle with the most events per mile shown at the top of the report.

Availability

This report can be scheduled for email delivery daily, weekly or monthly.

Detailed Speed Limit Report

Page 1/1

SINGLE VEHICLE EXCEPTION REPORT

Description

The vehicle exception report details each event from a single vehicle. Events include speeding, harsh acceleration, harsh braking, harsh cornering, and G-Shock.

The report summary calculates the total number of exception events, the time spent over speed, the time spent exceeding the road speed limit and the time spent within the road speed limit.

Availability

This report can be scheduled for email delivery daily, weekly or monthly.

MULTI-VEHICLE/FLEET EXCEPTION REPORT

Description

The fleet exception report details each event from a fleet of vehicles grouped by day and sorted by the event time. Events include speeding, harsh acceleration, harsh braking, harsh cornering, and G-Shock.

The report summary calculates the total number of exception events, the time spent over speed, the time spent exceeding the road speed limit and the time spent within the road speed limit.

Availability

This report can be scheduled for email delivery daily, weekly or monthly.

Data Range 25/02/2021 - 03/03/2021

Exception Report

REPORT No. of Exceptions: 137 Harsh Acceleration Count 6

MULTI-VEHICLE/FLEET IDLE SUMMARY REPORT

Description

The idle summary report gives a vehicle by vehicle listing of the total vehicle idle time. Fuel cost is estimated based on the vehicle type specified:

Car – 0.605 Litres per hour
Van – 0.9 Litres per hour
Truck 2.0 Litres per hour

The report summary calculates the total fleet idle time/cost, the highest idling vehicle, and the lowest.

Availability

This report can be scheduled for email delivery daily, weekly or monthly.

Report Time 25/02/2021 - 03/03/2021
